€799

Introductory offer

With basic installation

Regular price from €898

Self-installation

Product only, per environment

€699

Introductory offer for Assistant and Coder: first 100 paying customers. Availability is confirmed in your quotation.

Basic installation includes setup, testing, a walkthrough and agreed brief aftercare in a familiar, compatible environment.

AITJE can arrange the hardware or server environment you need. Hardware, server rental, travel or on-site costs and additional setup are quoted separately.

02 / SERVICES

Services.

A clear starting point.

Focused assignments with a tangible outcome. Prices marked "from" apply to the scope agreed before work begins.

AI scan**€395**

Up to 3 key workflows: intake, around four hours of research, a concise report and a 30-minute discussion.

Introductory offer: first 10 paying customers · regular €495

Focused advice session**€150**

One specific AI question. Includes preparation, a meeting and a short written recommendation; two hours of total work.

Advice & analysis

Cost analysisFrom
€325

Review invoices and usage data. Receive alternatives and opportunities to improve AI costs and consumption.

Focused analysis · around three hours

AI data location checkFrom
€225

Check a limited selection of known AI services and settings: where is data processed or stored?

Safe AI use · around three hours

Guardrail checkFrom
€299

Review one workflow for limits, error handling and human oversight. Includes tests and findings; implementation is separate.

Optimisation · around four hours

Practical team training**€399**

A two-hour team session with relevant examples. Includes preparation and reference material; around four hours of total work.

Group size and topics agreed in advance

Practical AI guidelinesFrom
€349

Internal rules on AI tools, data and responsibilities. Adapted to your organisation and discussed with your team.

AI policy · around three hours

Basic installationFrom
€199

Setup, testing and a walkthrough in a familiar, compatible environment. Agreed brief aftercare; two to two-and-a-half hours.

Installation & setup

One assessment to build on.

The scan reviews AI use, costs and data flows. We reuse findings; you pay only for further investigation or implementation. A scan is optional.

Availability of the introductory scan offer is confirmed in your quotation. Extra research or a broader scope receives a separate estimate in advance.

03 / HOURLY SERVICES & SUPPORT

Hourly services & ongoing support.

For deeper research, custom development and ongoing help. You know what the time is for and what the budget will be.

Our hourly rate

Per specialist. We agree on scope, estimated hours and budget before work begins.

€75 / per hour**Advice & in-depth research**

Broader analysis, model comparisons and an approach to your AI question.

Optimisation

Improve existing chatbots, agents, knowledge bases and workflows.

Additional installation & setup

Configure networks, servers, knowledge bases or integrations. Includes extra hardware and environment research.

Ad hoc help & extra maintenance

Support without a subscription or work beyond your available monthly allowance.

Token management & optimisation

Improve AI usage, model calls and subscriptions for greater efficiency.

AITJE Custom / custom AI

Build, test and deliver an AI application, workflow or integration for your needs.

Safe AI use: follow-up work

Additional verification, technical measures, permissions and controls.

Custom projects can start with four to eight hours of research: €300–€600. This covers feasibility and approach; development and delivery are then estimated separately for each phase.

Support & maintenance

AITJE Core**€49** / per month**30 minutes per month**

Email contact and help within your time allowance.

AITJE Plus**€129** / per month**1.5 hours per month**

Email, phone contact and an agreed quarterly check within your allowance.

AITJE Max**€249** / per month**3 hours per month**

Plus with priority and discussions on next steps, within your allowance.

Personal advice, analysis, checks and implementation use the monthly allowance. A general development update is separate. Unused time carries over for one month, capped at one extra monthly allowance.

Scope and price agreed in advance. Extra work starts after approval. External licences, API use and infrastructure costs are separate. Ongoing support is optional.

For IT companies and agencies: AI expertise for your clients. Scope and price quoted per assignment.
